

## Students Are Safer When Drivers Slow Down

### Traffic Safety is Important to Everyone

Driving the speed limit reduces risk of injury and serious harm for drivers, passengers, and pedestrians. Make a deliberate choice to slow down, focus only on driving, and consistently wear a seat belt to demonstrate you care. Traffic safety culture is driven by daily choices. Together we make the roads safer for our children and youth!

### Tell the Story

Connect with concerned stakeholders and decision makers to slow speeds and mobilize your community. Share your data, issue a call to action, and engage community members:

- ⇒ Brainstorm solutions with your school board, city council, or county commissioners after a data presentation. Parents will also be interested!
- ⇒ Share [safety messages](#) in your social media to promote a traffic safety culture in school zones and other places children and youth visit in your community.
- ⇒ Use your data to craft a competitive Safe [Routes to School grant](#) to make infrastructure changes to improve safety.

**Slow Speeds to Keep Kids Safe** Speeding increases danger for everyone crossing streets or driving, walking, or rolling to school. Take these steps to slow down and improve student safety:

- ◇ Start or support a student safety patrol program. The [AAA Safety Patrol Operations Manual](#) is an excellent ‘how-to’ resource.
- ◇ Apply for [WTSC mini-grants](#) to fund school crossing guard programs or for local law enforcement to purchase equipment for school zone speed enforcement.
- ◇ Use this data brief and the [Speed Safety Cameras Enforcement Guide](#) to educate and support decision makers to adopt automated enforcement to slow speeds around critical places kids live, learn, play, and travel.
- ◇ [Explore lowering speeds](#) to 20 MPH on school walk routes to protect school children and families.

### Online Resources

- ⇒ Use the [Walkability Checklist \(Spanish\)](#) to decide if your neighborhood, school walk route, or community is a friendly place to walk. Your school zone speeding data may help you take steps to make walking and riding in your community safer.
- ⇒ Bust myths and use the [Prevent Pedestrian Crashes](#) guide to teach kids 10 years old and younger traffic safety skills. You may refresh your own skills, too!
- ⇒ Talk with preteens and teens using these talking points to [Prevent Teen Pedestrian Crashes](#). How long has it been since you earned your driver’s license? Things may have changed since then.
- ⇒ Get to know and work with your [regional Target Zero Manager](#), a traffic safety professional interested in your community and your safety! They are willing partners and have resources to promote traffic safety for everyone.

*“There is no power for change greater than a community discovering what it cares about.” Margaret Wheatley.*

# Island Park Elementary School Survey Results

November 15, 2022—Morning and Afternoon				How fast are SPEEDING DRIVERS going?			
Posted Speed/ Vehicle Action	Total Driver Observations (n=)	NOT Speeding Driver	Speeding Driver	Speeding 1-5 mph over	Speeding 6-10 mph over	Speeding 11-15 mph over	Speeding 15+ mph over
A.M. School Zone (20 mph)	327	44.6%	55.4% (n=181)	30.9% (n=56)	51.9% (n=94)	12.7% (n=23)	4.4% (n=8)
P.M. School Zone (20 mph)	751	39.5%	60.5% (n=454)	17.8% (n=81)	60.4% (n=274)	15.2% (n=69)	6.6% (n=30)
Entering School	74	71.6%	28.4% (n=21)	47.6% (n=10)	52.4% (n=11)	0%	0%
School Bus	17	41.2%	58.8% (n=10)	(n=1)	90.0% (n=9)	0%	0%
Passing Through	987	38.8%	61.2% (n=604)	20.9% (n=126)	57.6% (n=348)	15.2% (n=92)	6.3% (n=38)
All Drivers	1,078	41.1%	58.9% (n=635)	21.6% (n=137)	58.0% (n=368)	14.5% (n=92)	6.0% (n=38)

### Survey results show:

- ⇒ More than half of drivers were exceeding the 20 mph school zone speed limit, with slightly higher rates of speeding during the afternoon.
- ⇒ One of every five speeding drivers were traveling 30 mph or more in the active school zone, all of which were passing the school.
- ⇒ Three-fourths of drivers entering the school did not exceed the 20 mph limit.
- ⇒ Over half of observed school bus drivers were traveling 26 -30 mph in the school zone.
- ⇒ During the survey, 38 drivers were observed traveling in excess of 35 mph through the active school zone, and while children were present.

### Observation Notes

Observations were collected near the front of the school on Island Crest Way. There are flashing beacons with signage to indicate when the school zone is active. There are sidewalks on both sides approaching the school and one marked crosswalk in front of the school. School crossing guards were present for both school zone periods. There is substantial traffic volume which was much higher in the afternoon. The school is surrounded by wooded areas and residential neighborhoods.
