

Students Are Safer When Drivers Slow Down

Traffic Safety is Important to Everyone

Driving the speed limit reduces risk of injury and serious harm for drivers, passengers, and pedestrians. Make a deliberate choice to slow down, focus only on driving, and consistently wear a seat belt to demonstrate you care. Traffic safety culture is driven by daily choices. Together we make the roads safer for our children and youth!

Tell the Story

Connect with concerned stakeholders and decision makers to slow speeds and mobilize your community. Share your data, issue a call to action, and engage community members:

- ⇒ Brainstorm solutions with your school board, city council, or county commissioners after a data presentation. Parents will also be interested!
- ⇒ Share [safety messages](#) in your social media to promote a traffic safety culture in school zones and other places children and youth visit in your community.
- ⇒ Use your data to craft a competitive Safe [Routes to School grant](#) to make infrastructure changes to improve safety.

Slow Speeds to Keep Kids Safe Speeding increases danger for everyone crossing streets or driving, walking, or rolling to school. Take these steps to slow down and improve student safety:

- ◇ Start or support a student safety patrol program. The [AAA Safety Patrol Operations Manual](#) is an excellent ‘how-to’ resource.
- ◇ Apply for [WTSC mini-grants](#) to fund school crossing guard programs or for local law enforcement to purchase equipment for school zone speed enforcement.
- ◇ Use this data brief and the [Speed Safety Cameras Enforcement Guide](#) to educate and support decision makers to adopt automated enforcement to slow speeds around critical places kids live, learn, play, and travel.
- ◇ [Explore lowering speeds](#) to 20 MPH on school walk routes to protect school children and families.

Online Resources

- ⇒ Use the [Walkability Checklist \(Spanish\)](#) to decide if your neighborhood, school walk route, or community is a friendly place to walk. Your school zone speeding data may help you take steps to make walking and riding in your community safer.
- ⇒ Bust myths and use the [Prevent Pedestrian Crashes](#) guide to teach kids 10 years old and younger traffic safety skills. You may refresh your own skills, too!
- ⇒ Talk with preteens and teens using these talking points to [Prevent Teen Pedestrian Crashes](#). How long has it been since you earned your driver’s license? Things may have changed since then.
- ⇒ Get to know and work with your [regional Target Zero Manager](#), a traffic safety professional interested in your community and your safety! They are willing partners and have resources to promote traffic safety for everyone.

“There is no power for change greater than a community discovering what it cares about.” Margaret Wheatley.

Sorenson Early Childhood Center Survey Results

October 25, 2022—Morning Releases 10:25 and 11:25 a.m.				How fast are SPEEDING DRIVERS going?			
Posted Speed/ Vehicle Action	Total Driver Observations (n=)	NOT Speeding Driver	Speeding Driver	Speeding 1-5 mph over	Speeding 6-10 mph over	Speeding 11-15 mph over	Speeding 15+ mph over
10:25 School Zone (20 mph)	108	20.4%	79.6% (n=86)	26.7% (n=23)	52.3% (n=45)	15.1% (n=13)	5.8% (n=5)
11:25 School Zone (20 mph)	187	24.1%	75.9% (n=142)	19.0% (n=27)	52.8% (n=75)	18.3% (n=26)	9.9% (n=14)
Entering School	32	71.9%	28.1% (n=9)	55.6% (n=5)	22.2% (n=2)	22.2% (n=2)	0%
School Bus	23	47.8%	52.2% (n=12)	(n=1)	33.3% (n=4)	16.7% (n=2)	41.7% (n=5)
Passing Through	240	13.8%	86.3% (n=207)	21.3% (n=44)	55.1% (n=114)	16.9% (n=35)	6.8% (n=14)
All Drivers	295	22.7%	77.3% (n=228)	21.9% (n=50)	52.6% (n=120)	17.1% (n=39)	8.3% (n=19)

Survey results show:

- ⇒ More than three-fourths of drivers were exceeding the 20 mph school zone speed limit, and one-quarter of speeding drivers traveled over 30 mph.
- ⇒ Only half of the school bus driver observed traveled at or below the 20 mph limit, and five were observed traveling over 35 mph in the active school zone.
- ⇒ Most drivers entering the school did not speed through the 20 mph school zone.
- ⇒ Drivers passing the school were more likely to be speeding than drivers entering the school. Less than 15% of drivers passing through traveled at or below the 20 mph limit. Nearly one in ten speeding drivers traveled over 35 mph.

Observation Notes

Observations were collected north of the school on 88th Ave NE. Flashing beacons with signage indicate the active school zone. The school zone also includes Westhill Elementary School next to Sorenson. The area is surrounded by residential neighborhoods. Sidewalks are available on both sides of 88th Ave NE however there are no marked crosswalks crossing 88th Ave NE leading to Sorenson. There is an all-way stop intersection with a marked crosswalk at the elementary school.
