

Students Are Safer When Drivers Slow Down

Traffic Safety is Important to

Everyone Driving the speed limit reduces risk of injury and serious harm for drivers, passengers, and pedestrians. Make a deliberate choice to slow down, focus only on driving, and consistently wear a seat belt to demonstrate you care. Traffic safety culture is driven by daily choices. Together we make the roads safer for our children and youth!

Tell the Story Connect with concerned stakeholders and decision makers to slow speeds and mobilize your community. Share your data, create care and concern, issue a call to action, and engage community members:

- ⇒ Provide and collect a <u>parent-teen driving</u> <u>agreement</u> when students apply for a school parking permit to promote safe driving expectations
- ⇒ Adopt the free peer-to-peer <u>Teens in the Driver</u> <u>Seat program</u> to reduce risks and raise cash funds for your school club.
- ⇒ Encourage drivers 16-25 to use the free You in the Driver Seat app to earn free gift card rewards for safe driving. Provide your mailing address to request app cards to share with teens.

Slower Speeds Save Lives Speeding increases danger for everyone crossing streets or driving, walking, or rolling to school. Take these steps to slow traffic and improve student safety:

- Use this data brief and the <u>Speed Safety</u> <u>Cameras Readiness Guide</u> to educate decision makers to adopt automated enforcement to slow speeds around critical places kids live, learn, play, and travel.
- <u>Explore lowering speeds</u> to 20 MPH on school walk routes to protect school children and families.
- Engage teens with <u>traffic safety contests and</u> <u>scholarships</u> with cash awards!
- Share <u>safety messages</u> in your social media to promote a traffic safety culture in school zones and other places children and youth visit in your community.

Capital High School HOSA-Future Health Professionals, Olympia, WA, receives their \$500 State Farm award for completing two *Teens in the Driver Seat* modules.

Online Resources

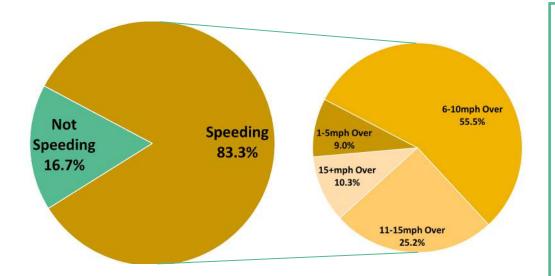

- ⇒ Use the <u>Walkability Checklist (Spanish)</u> to decide if your neighborhood, school walk route, or community is a friendly place to walk. Your school zone speeding data may help you take steps to make walking and riding in your community safer.
- ⇒ Talk with preteens and teens using these talking points to <u>Prevent Teen Pedestrian Crashes</u>. How long has it been since you earned your driver's license? Things may have changed since then.
- ⇒ Find <u>US Department of Transportation funding</u> to support increased safe bike and pedestrian pathways to where teens and families want to go. Use the <u>Let's Get Together: A Guide for Engaging</u> <u>Communities and Creating Change</u> to incorporate allies outside your learning community.
- ⇒ Get to know and work with your <u>regional Target Zero Manager</u>, a traffic safety professional interested in your community and your safety! They are willing partners and have resources to promote traffic safety for everyone.

"There is no power for change greater than a community discovering what it cares about.," Margaret Wheatley. $_1$

Franklin Pierce High School Survey Results

March 6, 2023—Afternoon				How fast are SPEEDING DRIVERS going?			
Posted Speed/ Vehicle Action	Total Driver Observations (n=)	NOT Speeding Driver	Speeding Driver	Speeding 1-5 mph over	Speeding 6-10 mph over	Speeding 11-15 mph over	Speeding 15+ mph over
P.M. School Zone (25 mph)	186	16.7%	83.3% (n=155)	9.0% (n=14)	55.5% (n=86)	25.2% (n=39)	10.3% (n=16)
Entering School	52	26.9%	73.1% (n=38)	7.9% (n=3)	68.4% (n=26)	21.1% (n=8)	(n=1)
School Bus	18	0%	100.0% (n=18)	16.7% (n=3)	50.0% (n=9)	22.2% (n=4)	11.1% (n=2)
Passing Through	116	14.7%	85.3% (n=99)	8.1% (n=8)	51.5% (n=51)	27.3% (n=27)	13.1% (n=13)

Observation Notes

Observations were collected near the entrance to the school on 18th Ave. E. There is no school zone signage indicating an active school zone. The regular posted speed is 25 mph. During the afternoon survey a person arrived in a personal vehicle, parked near the school parking lot entrance/exit, and set up cones across the street. This person directed traffic coming out of the school parking lot and traffic on the street.

Survey results show:

- ⇒ Four of every five drivers observed were exceeding the 25 mph posted speed limit. One-third of speeding drivers were traveling more than 35 mph. One in ten speeding drivers were traveling greater than 40 mph in the school area.
- ⇒ Drivers passing the school were slightly more likely to speeding than drivers entering/exiting the school, and also traveled at higher speeds when they were exceeding the 25 mph limit.
- ⇒ Eighteen school bus drivers were observed, and all of these drivers were traveling over the 25 mph limit. Three school bus drivers were traveling less than 30 mph, however two of the school bus drivers were traveling in excess of 40 mph.
