

Students Are Safer When Drivers Slow Down

Traffic Safety is Important to Everyone

Driving the speed limit reduces risk of injury and serious harm for drivers, passengers, and pedestrians. Make a deliberate choice to slow down, focus only on driving, and consistently wear a seat belt to demonstrate you care. Traffic safety culture is driven by daily choices. Together we make the roads safer for our children and youth!

Tell the Story

Connect with concerned stakeholders and decision makers to slow speeds and mobilize your community. Share your data, issue a call to action, and engage community members:

- ⇒ Brainstorm solutions with your school board, city council, or county commissioners after a data presentation. Parents will also be interested!
- ⇒ Share [safety messages](#) in your social media to promote a traffic safety culture in school zones and other places children and youth visit in your community.
- ⇒ Use your data to craft a competitive Safe [Routes to School grant](#) to make infrastructure changes to improve safety.

Slow Speeds to Keep Kids Safe Speeding increases danger for everyone crossing streets or driving, walking, or rolling to school. Take these steps to slow down and improve student safety:

- ◇ Start or support a student safety patrol program. The [AAA Safety Patrol Operations Manual](#) is an excellent ‘how-to’ resource.
- ◇ Apply for [WTSC mini-grants](#) to fund school crossing guard programs or for local law enforcement to purchase equipment for school zone speed enforcement.
- ◇ Use this data brief and the [Speed Safety Cameras Enforcement Guide](#) to educate and support decision makers to adopt automated enforcement to slow speeds around critical places kids live, learn, play, and travel.
- ◇ [Explore lowering speeds](#) to 20 MPH on school walk routes to protect school children and families.

Online Resources

- ⇒ Use the [Walkability Checklist \(Spanish\)](#) to decide if your neighborhood, school walk route, or community is a friendly place to walk. Your school zone speeding data may help you take steps to make walking and riding in your community safer.
- ⇒ Bust myths and use the [Prevent Pedestrian Crashes](#) guide to teach kids 10 years old and younger traffic safety skills. You may refresh your own skills, too!
- ⇒ Talk with preteens and teens using these talking points to [Prevent Teen Pedestrian Crashes](#). How long has it been since you earned your driver’s license? Things may have changed since then.
- ⇒ Get to know and work with your [regional Target Zero Manager](#), a traffic safety professional interested in your community and your safety! They are willing partners and have resources to promote traffic safety for everyone.

“There is no power for change greater than a community discovering what it cares about.” Margaret Wheatley.

Black Lake Elementary School Survey Results

December 12, 2022—Morning			How fast are SPEEDING DRIVERS going?				
Posted Speed/ Vehicle Action	Total Driver Observations (n=)	NOT Speeding Driver	Speeding Driver	Speeding 1-5 mph over	Speeding 6-10 mph over	Speeding 11-15 mph over	Speeding 15+ mph over
A.M. School Zone (20 mph)	85	24.7%	75.3% (n=64)	6.3% (n=4)	65.6% (n=42)	17.2% (n=11)	10.9% (n=7)
Entering School	23	39.1%	60.9% (n=14)	14.3% (n=2)	78.6% (n=11)	0%	(n=1)
School Bus	8	50.0%	50.0% (n=4)	0%	75.0% (n=3)	(n=1)	0%
Passing Through	54	14.8%	85.2% (n=46)	4.3% (n=2)	60.9% (n=28)	21.7% (n=10)	13.0% (n=6)

Survey results show:

- ⇒ Three of every four drivers observed were exceeding the 20 mph school zone limit. Most speeding drivers were traveling 26-30 mph.
- ⇒ One-fourth of speeding drivers were traveling greater than 30 mph in the active school zone.
- ⇒ One of every ten speeding drivers were traveling greater than 35 mph in the active school zone.
- ⇒ Eight school bus drivers were observed, and half followed the school zone speed limit. Three bus drivers were observed traveling 26-30 mph, and one was traveling 31-35 mph in the active school zone.
- ⇒ Drivers passing the school were slightly more likely to be speeding than drivers entering the school, and also traveled at higher speeds.

Observation Notes

Observations were collected near the front of the school on Black Lake Belmore Rd. SW. Flashing beacons with signage indicate the active school zone. There are also school crossing signs and marked crosswalks. The area is surrounded by large treed lots and residential housing. A sidewalk with a landscaped buffer area is available on the east side of Black Lake Belmore Rd. SW.
